X Marks the Spot™

Scratching your way to buried treasure!

X Marks the Spot:

No authentic treasure map is complete without a large **X** to mark the spot of the hidden booty. The *X MARKS THE SPOT* license makes creative use of the well-known **X** treasure spot, whereby creating a new level of game play for players (see **Unique Game Play** below).

Distinctive and universal, this license plays with the money theme of discovering buried treasure. Of course, getting at the treasure is a little less like digging and more like scratching, but it's still just as exciting.

Packed with extended play value, the ticket has 35 ways to win and offers players an exciting new game play unique to lottery tickets. In addition, *X Marks the Spot* also lends itself to a great line of merchandise as seen in the following pages.

Unique game play!

This playful treasure map design, containing its very own collection of scratchable sand dunes or mounds of coins, is packed with extended play value. With 35 ways to win, the ticket offers two different prize matching systems (money amounts or symbols), all the while taking a tic-tac-toe-like style game play or bingo style play, to a whole new level.

The **X** symbol features heavily in the ticket's design and play. Acting like a "wild card" the **X** symbol allows players to win with just two additional matching numbers, try for the extra Bonus Treasure Chest Play, and play an additional game across all four game grids (for larger sized tickets). The large golden horizontal **X** covers all four games and gives players two additional chances to win with a 10-times bonus feature! Have a look at the 4x6 and 4x8 ticket designs on the following pages!

Variable scenes for any time of year! The *X MARKS THE SPOT* ticket offers players **additional themes** for **Valentine's day**, **Halloween**, and the **holiday season**. There are also **BINGO themed**, and **Symbol themed** *X MARKS THE SPOT* designs to choose from.

Consider the *X MARKS THE SPOT* ticket as alternative (or addition) to your Crossword and Bingo games!

A note about the Treasure Chest prize!

For the most 'bang for your buck', it's best to program the ticket at all times with 2 wild X's somewhere on the card.

In addition, the Treasure Chest Prize (3 wild X's anywhere on the card), should be a frequent winner. Programming it as a or \$20, or \$30 or \$50 win many times in the run will be beneficial. That way, down to the last box scratch, players are still hoping for a third X if they have not already found one!

A note about the prize structure and large Diagonal X lines!

When one of the large diagonal lines is programmed to win (ie., the top left to bottom right diagonal in game #1 & #4, or conversely, the top right to bottom left diagonal in game #2 & #3, winners would win the 10-times the prize amount **as well as** the individual win for the diagonal in each of the two separate games.

FOR EXAMPLE: If game #1 and game #4 had all \$100's and a few wild X's, then the player would win \$1,200.00. (\$1,000.00 for the 10-times prize, and \$100 for the game #1 diagonal, plus \$100 for the game #4 diagonal). Programming and prize structure will have to take **this triple winning feature** into account!
