## Chemistry Class has never been so easy!

No doubt, you've heard of smart phones, smart watches, and smart cars. Isn't it time the lottery world had something *smart* of its own? Introducing the new **SMART MONEY<sup>TM</sup>** *licensed property*. It's smart, amusing, entertaining, and quite unique.

SMART MONEY is a familiar themed ticket whose game play, along with its very own nutty professor, pulls from the high school science and chemistry classes we all still remember. Only now, players can easily navigate formulas that weren't so easy in the past. All players have to do is match their elements with the winning elements, or find the symbol for gold ("Au"), and money follows. A few other bonuses have been added too.

The SMART MONEY tickets, along with the help of one very engaging nutty chemistry professor, are in keeping with entertaining lottery experiences players have come to love.
