HISTORY

On April 10th 1912, the maiden voyage of the majestic RMS Titanic began under the command of captain Edward J. Smith. Little did he or anyone imagine the power and appeal the Titanic name and popularity would carry with it for over a century. Lying undiscovered on the floor of the Atlantic for 73 years, rumors and speculation of finding the lost treasure trove of jewels and artifacts gained momentum. On September 1st 1985, speculation ended when the Titanic was found. In the years that followed, the RMS Titanic salvage holders have recovered over 6,000 artifacts and thrilled audiences all over the world with their traveling Titanic Artifact Exhibits.
